DETAILED ACTION

1. This office action is in response to the Amendment, Paper No. 7, filed February 12, 2003.

Currently, claims 1-12 are pending in this application.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-4, 8 and 9 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Applicant's Related Art (Figs. 3 and 4) in view of Miwa et al. (USPN 6,317,186 B1) for the same reasons set forth in the last office action.

Allowable Subject Matter

4. Claims 5-7 and 10-12 stand objected to for the same reasons set forth in the last office action.

Response to Arguments

5. Applicant's arguments filed 02/12/2003 have been fully considered but they are not persuasive.

Applicant argued that Miwa does not teach or suggest a seal pattern having a shape of a triangle with all three vertexes rounded with a radius and that Miwa fails to teach or suggest "the seal pattern having a plurality of U-shaped portions being bent toward an inside of the substrate." The Examiner disagrees with the Applicant's remarks

because, as shown in Fig. 7(b), the seal pattern has a shape of a triangle having all three vertexes rounded with a radius, wherein the vertex on the x direction and the vertex on the y direction are directed toward an inside of the substrate. The seal pattern in Fig. 7(b) also has a plurality of U-shaped portions wherein the portion on the x direction and the portion on the y direction are bent toward an inside of the substrate 20.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
